Osoam Cardamom Community Center

Our mission and your contribution

We develop income sources that encourage sustainable development of our community through international collaboration and tourism. We also support the prevention of illegal poaching and further deforestation of the unique Cardamom Mountains of Cambodia.

Here is our holistic approach for sustainable development:
1. Education of local population,
2. Vocational training,
3. Ecotourism experiences and
4. Agriculture programs.

Your support has a great impact on the sustainability of our community. When volunteering or participating in our tours, you help as you enjoy local food and trek with local guides. You also support local workers as they build our community for a better future.

Come join us! Your experience will directly support:

- Local people /workers (i.e. Guides)
- Rangers for law enforcement project
- Local food and other supplies
- Recycling Project
- Local community projects

The work and dedication of the Osoam Cardamom Community Center staff has provided a better life for the community. Your support will make a real difference for around 370 families who are the future of this authentic rural Cambodia.
